NEW BUSINESS

Dr. Tucker introduced Dean Kathryn Seidel. Dean Seidel reported on the progress of the GEP (General Education Program) Committee for 1996-97. The new charge by Provost Whitehouse is to infuse diversity into the General Education Program. Dean Seidel distributed the progress report of September 26, 1996 to the Faculty Senate. She discussed the seven major areas of the report, and invited the senators to attend the meetings. (Report is attached.)

Dr. Terri Fine reported on the Plus/Minus Implementation Committee. They had one meeting and three major issues were discussed. 1) Three out of nine SUS institutions have implemented the plus/minus, however, no two are the same. Some minus grades fall below 2.0. Two other SUS
institutions utilize only a plus system without a minus. 2) Mr. Tim Larson, UCF Computer Services, has been appointed to provide technological support, and will attend the meeting on October 1, 1996. 3) A major issue is whether students will be held to plus/minus if they started under an older catalog; according to legal counsel, it is possible to do so. 4) Committee’s goal - to get this policy in next year’s catalog. A final report and recommendation will be ready for the Faculty Senate by the November 21, 1996 meeting. According to Dr. Fine the faculty will not be required to use plus/minus, only for the final grade. Some concern was raised whether the policy would lead to grade inflation. These concerns and others will be integrated into the final report. Presently, the Committee is waiting on reports from two other institutions.

OTHER

Dr. Jay Jurie questioned issues of due process on awarding the TIP (Teaching Incentive Program) awards. He proposed the following Senate resolution:

“Be it moved by the UCF Faculty Senate that the Faculty Senate create a committee to which faculty members denied Teaching Incentive Program (TIP) awards may appeal said denials for review, and further, that upon request, such committee provide written reasons for any denials which may be upheld in review.”

Dr. Tucker will refer the above to the Faculty Senate Personnel Committee, with the request that they report back to the Faculty Senate on this matter no later than the November 21 Senate meeting.

A question was raised regarding the short time period available between the end of classes and final grades, an issue that came up this summer. Dr. Tucker will discuss this question with Dr. Huddleston.

Dr. Dzuiban explained the purpose and role of the Faculty Center for Teaching and Learning. He stated there would be faculty seminars in the near future.

Dr. Kathleen Richardson, presently teaching Chemistry to non-science majors, gave a presentation on Improving Teaching Effectiveness in a Large Classroom. She demonstrated the use of new teaching methods and multimedia to improve teaching to classes of over 300 to 500 students. Through the support from the Office of Instructional Resources, the Faculty Center for Teaching and Learning and the UCF Library, she has been able to use these new teaching methods for her class of over 300 students.

The meeting adjourned at 5:20 p.m.
