NEW BUSINESS

Resolution 1998-1999-5 Baccalaureate Honors

Whereas, the current system of determining Baccalaureate Honors based on the grade point average earned in the semesters that comprise the last 48 UCF hours has proven impractical due to the large number of 4.0 grade point averages produced in most UCF colleges, and
Whereas, Baccalaureate Honors should reflect a student’s entire academic record, and

Whereas, the University values the conference of Baccalaureate Honors,

Be It Resolved, that UCF return to its previous policy of conferring Baccalaureate Honors on those students who have completed a minimum of 48 UCF credit hours and who are in the upper 10% of the graduating class of their college as determined by overall grade point average (as described in the 1997-98 Undergraduate Catalog - p. 69).

Dr. James Campbell informed the Senate that at the last UPCC meeting, the Committee favored the return to its previous policy in the GPA Catalog 1997-1998. After a very lengthy discussion on the resolution, the Faculty Senate approved Resolution 1998-1999-5 Baccalaureate Honors.

Resolution 1998-1999-6 Term limits for State-Funded Assistantship

Whereas, graduate assistantship funded using state monies are limited and scarce, and

Whereas, some graduate assistants have been supported on these funds for long periods, and

Whereas, these funds are best used to support students for a reasonable period of time while working towards a degree, and

Whereas, these funds are then best used to recruit highly qualified new graduate students

Be It Resolved, that term limits should be defined for graduate student assistantship funded using state monies, and

Be It Further Resolved, that these terms be made consistent with the terms used for tuition waivers that is a maximum of nine terms for master’s students and 21 terms for doctoral student, inclusive credit hours from a master’s degree or twelve terms for doctoral students who have transferred in up to 30 student credit hours from a master’s degree.

The resolution was discussed extensively. In conclusion, a motion was made to edit the resolution by deleting the Be It Further Resolved and one Be It Resolved which reads as follows:

Be It Resolved, that the Senate supports the concept of term limits for State funded graduate student assistantships.

The resolution was approved by the Faculty Senate.

RESOLUTION 1998-1999-7 Sexual Harassment Policies and Procedures

Whereas, the Faculty Senate recognizes the issue of harassment based on gender, race, religion, sexual orientation and disability is complex and stems from legal and case history, and
Whereas, the university community would like guidance on these matters, and

Whereas, the state, the university and faculty can incur liability if discrimination complaints are not dealt with in a timely and appropriate manner,

Be It Resolved, that an articulation of guidelines be provided to the University of Central Florida community that describe and define harassment based on gender, race, religion, sexual orientation and disability, and

Be It Further Resolved, that guidelines be provided to the University of Central Florida community for the investigation and resolution of such actions.

Dr. Cook stated that this resolution comes to the Faculty Senate from the Steering Committee. Several colleges on campus have discussed the problems of harassment on campus. It was discussed and approved by the Steering Committee that University guidelines are needed. Provost Whitehouse stated that he would see that guidelines were developed and that faculty would be involved in the preparation of such guidelines. The resolution was unanimously approved.
